FOUNDRY TRADE JOURNAL
Established 1902

Index to Volume 92

January to July, 1952

A

Aachen Foundry Symposium, 216
Abrasive Wear, Castings to Resist, 587
Abrasives for Sand Blasting, 169
Accident-prevention Conference in London, 65
Accident Prevention in Iron and Steel Works, 499
Acknowledgments, 30
Aga Conference and Dinner, 270
Aims of Steel Rationing Scheme, 76
Allies form Big German Steel Company, 288
Alloy Steel Arrangements, 448
Alternative Types of Coreprint, 261
Aluminium-alloy Casting, History of, 223; (Discussion), 251
Aluminium-bronze D.T.D. 412, Production of Castings in, 487
Aluminium Costs More, 354
Aluminium Founding Alloys, 357
Aluminium Scrap Prices Increased, 376
Amendments to Steel Distribution Scheme, 162
American Library: Industrial Section, 399
American Foundrymen's Society Awards, 322
American Report, 596
American Research Trust, 119
Anglo-American Dealings, 127
Anti-corrosion Lectures, 447
Appeal for a Foundry Succeeds, 228
Application of Dilatometric Analysis to the Problem of Enamelling Cast Iron, 151; (Correspondence), 258
Approach to Recruitment and Training, 112
Ardennes Hospitality Reciprocated, 484
Associated British Engineering—Henry Meadows Share Bid, 23
Associated Electrical Industries Expansion, 103
Association of Bronze and Brass Founders, 260, 288, 359, 398, 463
Association Technique de Fonderie, 330, 597
Automatic Dust Sampler, 86

B

Babcock & Wilcox Director's New Post, 396
Basic-lined Water-cooled Cupola at Lynchburg Foundry, 45
Basic Principles of Lubrication, 560
Beaufoy Institute Foundry, 355
Beilby Memorial Awards, 1951, 451
Biennial B.I.F.? 546
Birlec Silver Jubilee, 516
Birthday Honours, 633, 668

Book Reviews:

Case Study Data on Productivity and Factory Performance—Grey Iron Foundries, 311
Chill-cast Tin Bronzes, 200
Conference on Malleable Cast Iron, 250
Defauts de Fonderie (Foundry Defects), 285
Financial Control for the Small Manufacturer, 285
Foundry Work, 336
Fruitful Heritage, 681
Gears, Spur, Helical, Bevel and Worm, 200
Government and Industry, 285
Lead Toy Casting, 200
Manufacture of Iron and Steel, Vol. II, Steel Production, 12
Materialprufung und Betriebsuberwachung in der Eisen-und Stahlgiesserei (Materials Testing and Process Control in Iron and Steel Foundries), 250
Mechanical World Year Book, 1952, 12
Non-destructive Testing of Metals, 336
Science of Flames and Furnaces, 200
Story of the Mushets (The), 681
Thermodynamics of Alloys, 285
Tungsten, 681

Brains Trust Meetings, 147
Brasses, Deoxidation of, 549
Brassfoundry Productivity Conference, 288, 398
Brazilian Iron Ore, 577
Britain's Widening Trade Gap, 102
British Blast Furnaces in the December Quarter, 1951, 156; in the March Quarter, 1952, 526
British Bronze and Brass Ingot Manufacturers' Association, 207
British Export Trade Research Organization to Close Down, 94
British Industries Fair, 456, 485
British Iron and Steel Research Association: Physics Laboratory, 355; Research on Foundry Matters, 683
British Non-Ferrous Metals Research Association, 432
British Railways Contract for G.E.C., 186
British Rollmakers' Corporation, 233, 644
British Standards Institution:—
Cast-aluminium Hollow-ware, 602
Code for Sampling and Analysis of Flue Gases, 340
Colours for Compensating Leads, 366
Information, 65, 270
Methods for the Sampling of Ferrous Metals and Metallurgical Materials for Analysis, Part I, Iron and Steel, 534
Sizes of X-ray Film and Intensifying Screens, 695
Temperature Chart Ranges, 602
Year Book, 586

British Thomson-Houston Jubilee, 550
Brush Aboe Group Activities, 312
Brush Electrical Engineering's Offer, 263
Buxton Conference, 643

C

Capital Issues, 209
Case for Cast Iron, 145
Casting a Stainless-steel Propeller, 119
Casting Problems of Copper/Lead Alloys, 509, 541

WEST ENGINE LIBRARY
TS
200
F82

Castings for a Small Diesel Engine, 57
Castings to Resist Abrasive Wear, 587
Cast-iron Crankshafts, 36, 82
Cast Iron for Vitreous Enamelling, Process Control, 603
Cast-iron Water Pipes Hold-up, 404
Catalogues, New, 119, 181, 247, 344, 420, 466, 595
Catering for Shrinkage, 469
Cement Costs More, 150
Centenaries of 1952, 3
Central Foundry Division of the General Motors Corporation, Saginaw, Michigan, U.S.A., 203
Ceylon to Establish Iron and Steel Works, 180
Chamotte Cores, 490
Claim from Scots Foundry, 234
Cleaning Room Extension Opposed, 546
Clearing the Air, 321
Clydebank Centenary, 11
Code for Sampling and Analysis of Flue Gases, 340
Cold-cathode Lighting, 634
Colouring and Marking of Wooden Pattern Equipment, 164
Colouring Oxides in Vitreous Enamels (Discussion), 255
Commercial Services in Glasgow, 164
Company of Cutlers, 356
Composite *v.* One-piece Pattern Construction, 329
Conference at Buxton and Sheffield, 295
Conference on Recruitment, Training and Education, 188, 351, 385
Conference Works Visits, 573, 599
Connor-block Feeder, 243
Contraction and Blowholes, 95
Contribution of Research to the Metallurgy of Cast Iron, 517
Control of Cranes by Television, 646
Co-operation in the Steel Industry, 526
"C" Process, 546
Copper Alloys for Die-castings, 205
Copper-base Non-ferrous Ingots, 121
Copper/Lead Alloys, Some Casting Problems, 509, 541
Copper, Lead and Zinc Pricing Arrangements, 136
Copper Price Adjustments, 376, 404
Core-gum Causes Wasters, 170
Coreprint, Alternative Types, 261
Core and Coreprints, 204
Cores instead of Loose Pieces, 691
Cornish Mineral Resources, 128

Correspondence:

Cast-iron Crankshafts, 36, 82
Expansions of Cast Iron and Enamel, 258
Fifty Years of Malleable Practice in England, 378
Joint Standing Committee on Conditions in Ironfoundries Sub-committee, 454
Magnesium Advisory Committee, 404
Practical Examinations, 56
Saving *un Milliard*, 682
Scope for Co-operative Action, 296
Swarf Melting in the Cupola, 356

Correspondence of a 19th-century Ironfounder, 99
Corrosion of Buried Metals, 19
Corrosion Resistance of Aluminium, 439
Council of Ironfoundry Associations: Information Officer, 484; Report, 483; Tenth Annual Meeting, 440
Covercoats, Scratch-resistance of White Enamel, 367
Craftsmanship of Output, 71
Creep Testing, 86
Crompton Parkinson Director, 157
Crossley Brothers Modern Foundry Developments, 31
Cross-section of a Non-ferrous Jobbing Foundry, 189, 229
Cupola (basic-lined, water-cooled) at Lynchburg Foundry, 45
Cupola Design, Recent Development, 404, 443
Cupola Practice Discussion, 286
Cupola Supply to Open-hearth Furnaces, 420

D

Damages for Crane Slinger, 696
Darlington Firm's Bridge Contract, 128
Davy & United's Turkish Contract, 278
Dearth of Scrap Metal in South Wales, 634
Decline in Working Population, 235
Defects in Enamelling, 13
Deoxidation of Brasses, 549
Department of Scientific and Industrial Research: Appointment, 128; Work, 1950-51, 523
